

GRAB YOUR **AD** AND GO

BUILT FOR THE DIRT, THE WATER, THE ROAD.

Since day one, AO was built on giving active people quality products at a reasonable price. We started selling our coolers to the hard-core, go-fast boaters in Lake Havasu. The extreme heat, sometimes reaching 120 degrees, gave us our name for keeping ice for 24 hrs., or even the entire weekend. That was 19 years ago.

Today, with a lot of hard work, we are still making our high-quality coolers. We have new styles, but also many other products in both the marine and off-road sections. We have grown with our customers and provide products for our high-octane souls of the world.

#AOANDGO

CANVAS SERIES

PORTABLE AND DURABLE

The original AO canvas cooler series has been in the cooler game for over 30 years! Our canvas coolers have been a staple for our brand with good reason. Our canvas cooler's exterior is made from 600 denier polyester canvas, with a heavy-duty backing for exterior strength and a Scotchgard™ topcoat for UV protection. They are insulated with $\frac{3}{4}$ " thick polyurethane high-density closed cell foam, which makes it hard for air to blow through. They are lined with a leak-proof, eco-friendly welded TPU liner that has physical strength and elasticity, making it abrasion-resistant. Our canvas coolers are famous for boating, picnics, lunch use, and traveling.

BALLISTIC SERIES

ABRASION RESISTANT

AO's ballistic series is the newest addition for any sportsman. The 1680 denier ballistic material is a tough, synthetic 2x basketweave fabric. This heavy-duty fabric is abrasion-resistant and has a durable construction, making it a top-performing choice for rugged applications. Ballistic material is most widely used in the construction of backpacks, luggage, belts, straps, motorcycle jackets, watch bands, and knife sheaths. This lightweight ballistic fabric will hold up well against extreme temperatures and outdoor elements. Our coolers are insulated with a $\frac{3}{4}$ " thick closed-cell foam to keep drinks and food ice cold all weekend. The TPU eco-friendly liner is welded into the cooler, which keeps your cooler leakproof, and also features four tie-down hooks to strap it down on any side x side so you can take it with you on your next adventure.

CARBON SERIES

SLEEK AND DURABLE

The sleek carbon series coolers are some of the best-looking coolers on the market. They're made with vinyl-coated fabric that looks like carbon fiber and will perfectly match your boat or side x side interior.

These coolers are insulated with a $\frac{3}{4}$ " thick closed-cell foam to keep drinks and food ice cold all weekend. The TPU eco-friendly liner is welded into the cooler, which keeps your cooler leakproof.

The carbon series coolers feature four tie-down hooks to strap it down in any off-road vehicle so you can take it with you on your next adventure. They're great for dual-purpose off-roading and boating because they are extremely easy to clean or wipe off.

LEOPARD SERIES

STYLISH AND SENSIBLE

The leopard cooler was inspired by women as we have received requests for more feminine colors and for fun designs from our customers. These coolers are made for women and are made by women.

Our leopard print series is made from a rugged 1200 denier fabric that is tear-resistant and water repellent. We have also upgraded to a TPU coated reverse zipper. This gives the cooler a more airtight, water-repellent seal and sleeker look. You will not find these d-rings on any of our standard series. Upgraded d-rings offer a stronger tie-down area as well as an additional smaller area to attach your favorite bottle opener or keys. We have added a padded shoulder strap in matching fabric and accent color for a comfortable haul and double zipper pull tabs for easier access.

MOSSY OAK SERIES

STAY HIDDEN IN STYLE

Our mossy oak series is the most popular among hunters and rugged outdoorsmen, and for good reason. We've taken our original canvas series and added a licensed Mossy Oak pattern that will help keep you hidden!

These coolers are great for packing snacks and drinks for that perfect hunt. They're insulated with $\frac{3}{4}$ " thick polyurethane high-density closed cell foam and lined with a leak-proof, welded, eco-friendly TPU liner that has strength and elasticity—making it abrasion-resistant.

HYBRID SERIES

HYBRID SERIES

Our customers asked, and we listened.

AO Cooler's Hybrid 24-Pack Cooler is the first of its kind! This rigid soft cooler is a hybrid between a hard cooler and a soft cooler. The 1 1/2-inch insulation and the thick outer material make the cooler perform like a hard cooler but with the lightness of a soft cooler. Our hybrid Cooler is extremely easy to carry as it only weighs 8.5 lbs. compared to the standard hard cooler weighing 20+ lbs. The welded, eco-friendly TPU material and molded EVA bottom make it rugged, durable, and easy to fit in compact spaces. We have also included durable, waterproof YKK zippers to eliminate spillage and ensure easy access to your favorite drinks or lunch!

MARINE PRODUCTS

QUALITY PRODUCTS YOU CAN TRUST

AO Coolers has been in the cooler game for over 25 years. We wanted to broaden our horizons by introducing our marine way of life, into our business. We design our products around our customers which is why we have created AO Marine.

AO Marine is for our high-octane fisherman and women who need a product they can rely on to get them through their fishing voyage, and for our river/lake people who need quality boating essentials as well as water products to add to their fun.

We offer extensive customer support and a product warranty to ensure our customers are satisfied with their products, because they come first.

TUNA PRINT - INSULATED FISH BAG

The first-ever graphic wrapped, ready to use, Insulated Fish Bag.

The 1" closed-cell foam insulation and tear-resistant 18 oz vinyl liner keep your catch fresh and cool for hours and even days. The heavy-duty 18 oz vinyl exterior is UV and mildew-resistant, with a reinforced bottom that will not rip while dragging off your boat—built with rugged, non-corrosive YKK zippers for extra durability, four heavy-duty carrying straps for easy transport, and a side pocket for dry storage. Each fish bag includes six mylar AO Marine Fillet Bags, which feature a zip-close seal, catch, and date lines and are both odor-proof and waterproof.

The Ultimate Insulated Fish Bag is a must for your next fishing adventure.

FRESH/SALT WATER INSULATED FISH BAG

A smaller version of our best-selling 4ft and 6ft Insulated Fish Bags. This smaller size is great for lake fishing as well as just a large party where a standard size cooler just isn't enough. All the same, materials are used on this bag like YKK zippers, 18oz digital graphic outer vinyl combined with a 18oz inner vinyl that is mildew resistant and protects from UV. Heavy-duty carrying handles and reinforced nylon bottom for tough surfaces. This bag does it all.

2FT

AOMFB2FT

DIMENSIONS: 24" x 8.5" x 16"

QUART SIZE: 56.5

MSRP: \$149.95

FILLET BAGS

Whether you're a fisherman looking for a way to keep your catches organized and your freezer clean, or you're just someone who hates the smell of fish, we've got a solution for you.

Our Fillet Bags are better than the average zip close that you have used for years! They include species, location, and date lines for keeping track of your catch. They're odor-free for maintaining a clean-smelling freezer, and are waterproof to ensure your fillets remain fresh with no liquid coming in or out! Keep your freezer organized with the AO Marine Fillet Bags.
