TOPAZ

more than the sum of its parts - options, comfort and style for days

A new height for outdoor lounging and traditional or casual dining is now available in a stunning and harmonious marriage between design, comfort and materials.

The Topaz Range from LifestyleGarden® takes the very best materials for outdoor living products, and brings out the most of them – from strong, elegant aluminium, through olefin fabrics and padded Weather-net®, to warm, natural, FSC™ teak and zero maintenance high-pressure laminate.

Aluminium

With options allowing you to create the perfect, sustainable outdoor living available to you, the Topaz range is nothing short of the perfect solution when you really want to combine style and eye-catching designs, with quality-of-life features and comfort; all with little-to-no maintenance required.

PALAU

a perfect balance between comfort and design

Made with slate aluminum and handcrafted to perfection, using contemporary design. Accentuated with virgin FSC™ teak; Palau is LifestyleGarden®'s top-end aluminium range, a unique and robust signature edition for the most luxurious outdoor spaces.

Aluminium

Teak FSC™

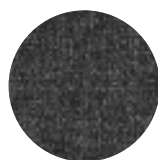

Olefin® Fabric

ALU
DGRY

TEA
FSC

FABRIC
8824

All LifestyleGarden® aluminium products are protected with Duracoat®, a multi-layer powder-coating that is oven-cured to provide a great-looking finish that is resistant to all kinds of weather conditions. Not only that, Duracoat® is 100% REACH compliant and does not prevent recyclability of the metal.

AMBER

premium style for a more compact space

Combining the contemporary style of aluminium, with the traditional staple of the garden in FSC™ virgin teak, the Amber range is the perfect addition to your garden if you enjoy the Premium feel, but in a more compact space. By pairing Weather-Net® with our premium olefin cushions, the range is not only diverse in appearance, but you won't even need cushions on – if, for example, you are waiting for them to dry after a shower of summer rain - for a comfortable sitting experience due to the excellent Weather-Net® support.

Aluminium

Teak FSC™

Weather - Net®

Olefin® Fabric

ALU
MGR

TEA
FSC

WNT
MEG 2-2

FABRIC
8888

The premium olefin is not only highly robust, but its fibres absorb less moisture, allowing the material to dry much faster than other fabrics, resulting in a superior resistance to staining as well as greater resistance to the elements.

AMBER

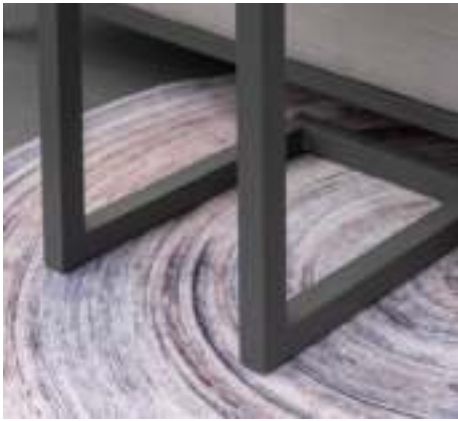

RUBY

premium indoor/outdoor living

Upholstered using LifestyleGarden®'s latest technology in quick dry materials, our Ruby range combines the supreme comfort of beautiful design and the resemblance of indoor living with the durability and robust materials required to keep it outside year on year. Manufactured to the specifications of commercial grade furniture, means that the Ruby range will maintain its appearance for as long as you use it.

By using Aluminium for the frames, the Ruby range is a maintenance free option for a premium finish to any outdoor space.

Endless combinations thanks to the ruby modular system

BAHAMAS

high end supreme comfort with a contemporary look

Handwoven in exclusive all-weather wicker combined with generous accents in reclaimed FSC™ teak, and topped with body hugging cushions wrapped in durable olefin fabric. The Bahamas is another signature range ideal for large spaces. The warm, earthy tones of the Bahamas range and the smooth lines of its finish ensure that it can blend beautifully with practically any surroundings while delivering premium comfort levels to guests and family alike.

Petan®

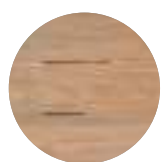

Teak FSC™ Recycled

Olefin® Fabric

FSC RCY

FABRIC
8839

Our specially formulated blends give the Petan® fibre its unique look and extra strength. It also produces a surface that is extremely comfortable to sit on whilst being able to withstand heavy use. Petan® has excellent colour fastness and is also very flexible, meaning complex weaves can be achieved to create beautiful designs.

OPAL

contemporary style with durability in mind

High pressure laminate tables paired with aluminium frames allows for a robust and stylish addition to any garden. By finishing the dining range with our Olefin rope, alongside a reclining option on the sofa, the Opal range offers a full package of stylish, premium furniture, with no compromise taken on its flexibility.

By using high pressure laminate to craft our table tops, the Opal range offers a material preferred for commercial use, proving its durability whilst remaining faithful to its contemporary design.

PORTALS DARK

eye-catching design with contemporary styling

The Portals Dark range is characterised by ergonomic lines and unique shapes that have been created without compromising stability and strength. Accented with virgin Indonesian FSC™ teak for a traditional touch and combined with premium-grade olefin cushions for comfort and a contemporary feel. The Portals range offers a sophisticated and contemporary take on outdoor living.

NASSAU

a festival of colours for the spirited

Inspired by the colourful houses of this Caribbean city, Nassau is the perfect combination of pastel colours mixed with FSC™ certified teak or eucalyptus hardwood. This family is ready to spice up every urban space, big or small and to light up your outdoor area.

With our recycled products in the Nassau collection made from DuraOcean® and Social Plastic® materials, we are fighting plastic pollution and inequality. These recycled materials are sourced differently in order to approach the plastic pollution problem from as many angles as possible, and can be recycled with zero-waste or damage to the environment.

HOW WE ARE FIGHTING PLASTIC

DURAOCEAN®

It is an innovative product development made with recycled maritime plastic, as part of a circular economy project aiming to keep the Oceans clean. The DuraOcean® Collection is designed for disassembly, meaning that the design allows each component in its purest form to be recycled into new production circles.

SOCIAL PLASTIC®

Made from recycled plastic waste, this material is collected by the local population along the rivers and coasts of South East Asia – who are trained and paid for this – preventing it from entering landfills and ocean. This helps the clean-up of our planet and compensates the people who care for the well-being of their home areas and also supports building sustainable communities.

Our Social Plastic® pieces are made with circularity in mind and can be disassembled and reintroduced into the production circle through re-recycling.

Every single chair is made from 3.5kg of recycled plastic

We support sustainable communities and the clean-up of our planet

We are reducing, reusing & recycling

POLLUTION AND INEQUALITY

SOLANA

great looks and straightforward sophistication

The perfect union of aluminium and Duraboard® make this a light, robust and maintenance-free range because we know you want to focus on enjoyment and relaxation. Made to last for years to come, make the Solana part of your outdoor family.

MATERIAL &

WARRANTIES

ALUMINIUM

5 YEARS
LIMITED
WARRANTY

LifestyleGarden® uses ALUMINIUM 6063 for products, a material commonly used for boat building and water-sensitive shore applications, as it is ideal for outdoor use. Following the construction of the frames, a multi-layer powder-coating is applied before a final step of oven curing. If the finish should become soiled, cleaning with soap and water will be sufficient to make it look great once more. Not only this, our aluminium comes already being up to 50% recycled, for extra sustainability.

PETAN®

5 YEARS
LIMITED
WARRANTY

PETAN® is a synthetic rattan fibre that is durable, weather-resistant and has a natural colour and feel. It contains no harmful chemicals, making it 100% recyclable. It also has excellent colour fastness and is able to withstand heavy use. Petan® requires no maintenance. Simply wiping the surface with detergent and a clean, damp cloth will restore the Petan® to its original condition.

HPL®

5 YEARS
LIMITED
WARRANTY

LifestyleGarden® High Pressure Laminate (HPL) are unique table tops made from paper that is impregnated with resin and compressed into a very hardwearing and scratch-resistant surface. The result is a strong, sustainable material that require little-to-no maintenance and will look pristine for a long time.

SOCIAL PLASTIC®

3 YEARS
LIMITED
WARRANTY

Made from recycled plastic waste, this material is collected by the local population along the rivers and coasts of South East Asia – who are trained and paid for this – preventing it from entering landfills and ocean. This helps the clean-up of our planet and compensate the people who care for the well-being of their home areas and also supports building sustainable communities.

Our Social Plastic® pieces are made with circularity in mind and can be disassembled and reintroduced to the production circle through re-recycling.

DURALAND®

3 YEARS
LIMITED
WARRANTY

It is an innovative product development that uses recycled plastic waste collected from the land, as part of our circular recovery project.

The DuraLand® Collection is designed for disassembly, meaning that each component can be recycled in its purest form into new production circles.

DURAOCEAN®

3 YEARS
LIMITED
WARRANTY

DuraOcean® is an innovative material development made with recycled industrial marine rope - collected from ports and sea areas - as part of a circular economy project aiming to keep the DuraOcean® clean. The DuraOcean® Collection is designed for disassembly, meaning that the design allows each component in its purest form to be recycled into new production circles.

ALUPRINT®

3 YEARS
LIMITED
WARRANTY

ScanCom's AluPrint® is our own, patented way of printing beautiful finishes onto aluminium profiles to lift the look of the material to the next level. Created entirely in-house, this finish allows us to add a natural look to the metal, while maintaining a very low weight and high durability. AluPrint® also allows us to find new ways of adding details to our products that adds just that extra touch to the pieces of any outdoor space and allowing for zero maintenance and premium weather resistance.

FSC® DURABOARD®

3 YEARS
LIMITED
WARRANTY

DURABOARD® is an environmentally friendly material that is durable, recyclable, highly UV-resistant and has a unique surface finish. Made of high quality eucalyptus sawdust and polyethylene resin, the surface is subjected to a customised UV and scratch resistant treatment. Duraboard® requires no maintenance at all during its lifecycle. If the Duraboard® product becomes dirty, cleaning with soap and water is sufficient.

TEAK FSC™

3 YEARS
LIMITED
WARRANTY

Teak FSC™ is a superior wood species renowned for its golden colour and weather-resistant properties. In addition to the teak grown on FSC™-certified plantations, LifestyleGarden® manufactures products exclusively from recycled teak wood components sourced on the island of Java, Indonesia. Teak ages beautifully into a silver-grey colour but the original appearance can be maintained if treated with a suitable teak sealer oil.

DURAGRAIN®

3 YEARS
LIMITED
WARRANTY

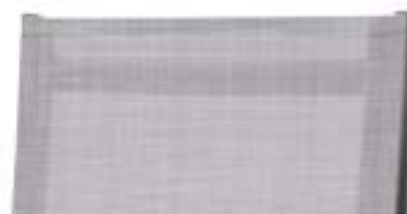

DURAGRAIN® is a dual-layer coating for wood. This technology provides protection for the hardwood while allowing the natural grain of the wood to be appreciated through the unique coloured finish. Duragrain® will retain its finish best when treated regularly with wood maintenance products such as Wood Cleaner, Wood Sealer, and Wood Protector.

FABRICS

3 YEARS
LIMITED
WARRANTY

LifestyleGarden® only uses FABRICS with excellent weather-resistant properties for extreme durability in all climates. Olefin and polyester are all used for their high-quality performance and made of woven structures that resemble a linen fabric. All fabrics have excellent colour fastness and are extremely durable. Soap and water and a wet cloth should be used to remove any stains or soiling. When not in use, it is recommended that cushions be stored away as the fabrics are not water-proof.

WEATHER-NET®

3 YEARS
LIMITED
WARRANTY

Weather-Net®, a special yarn finely woven to create the perfect solution for outdoor seating. Weather-Net®'s polyester yarn has high strength and elasticity, providing optimum comfort and durability. Weather-net® is available in a range of colours that demonstrate an awareness of the latest trends in colours and patterns is able to provide the perfect, low-maintenance seating option for outdoor furniture.

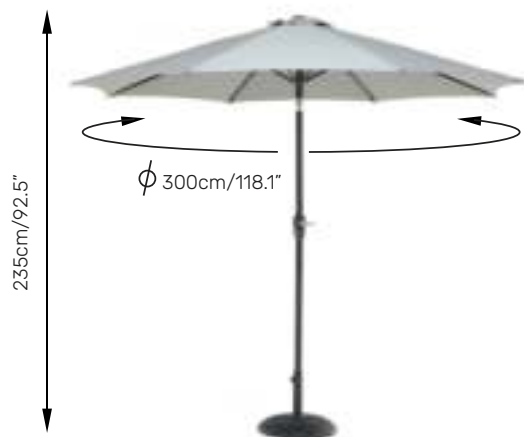

ROPE®

3 YEARS
LIMITED
WARRANTY

ROPE® has strength and durability in addition to flexibility, creating a comfortable yet hardwearing material. Rope is made of Olefin and is suitable for year round use in all types of climates, and high levels of UV stability enable it to retain its original colour.
