1

Front

Back

Please distinguish between the front and back of the straight rods when installing them, keeping the grain aligned on the front and the seams aligned on the back.

Fix the A-rods in the garden bed with an H-screws against the top two holes, with the narrower end of the A-rod toward the top.

2

Install the B-rods, C-rods, and D-rods in the correct order, paying attention to the back seam alignment.

3

Install the E-rod with I-screws in the middle of the two B-rods, starting from the top hole of the B-rods and every other hole thereafter, continuing until four E-rods are installed.

4

Front

Back

Install F-rods in the middle of B-rods and C-rods, starting from the top hole of the C-rods and every other hole thereafter, continuing until four F-rods are installed.

5

Install G-rods in the middle of C-rods and D-rods, starting from the top hole of the D-rods and every other hole thereafter, continuing until four G-rods are installed.
